Gutter Protection Systems  
**LOW PROFILE DIVERTER**

**\*NEW PRODUCT\***

## LOW PROFILE DIVERTER

GutterLock Low Profile Diverters are designed to keep water from flowing over the top of your gutter covers or just gutters in heavy flow areas such as an inside corner. Our aluminum diverter can easily handle any rainfall. Splash diverters are typically an eyesore with how tall they are. Ours are only 2" tall and 16" long. Our special patent pending design forces water downward and back towards the gutter or gutter covers. Very easy to install on any gutter system. Available in 13 colors (see back).

- Ask for quantities and pricing
- 2" Height x 16" Length

**PATENT PENDING**

**\* Diverters for Inside Corners \***

**Must set Diverters at 110\* angle, NOT a 90\* angle**

**Available in 13 Colors**

\*See Dealer sample chips for exact color match.
